***Winner of the Carol Cup for the best FIRST CROSS at the Breed Show 2016***

Owlsbridge One Stab was bred originally for my daughter as she requested that she wanted a coloured pony. I put my graded mare that runs on the Forest in the Linford/Rockford area to an American Paint Horse. As my mare is a plain bay with no white markings at all, I was doubtful that she would produce a foal with a lot of colour, but when I asked if the stallion was guaranteed to produce offspring with colour I was assured that as he had the homozygous gene so I would definitely get a skewbald pony...as you can see they kept their side of the bargain!

One Stab ran on the Forest with his mother as a foal (all the locals knew him) and he was turned out to run on the Forest for several months as a two year old gelding. One Stab is broken in now and I enjoy riding him as he has a laid back nature and he really is a 'cool dude'! "Stabby" also looks after a 5 year old jockey and this year they won a Lead Rein Pony class on their first outing. One Stab won the Frank Shutler Cup at the Breed Show in 2009 for the Best First Cross Foal and now I am delighted that he has received the Carol Cup for the Best First Cross, 4 years and over this year.

And in case you are wondering...my daughter has two registered New Forest mares that she rides and I still owe her the stud fee for One Stab which was my gift to her for her eighteenth birthday!
